# Corporate Governance Matters: A Closer Look At Organizational Choices And Their Consequences (2nd Edition)

## Synopsis

This is the most comprehensive and up-to-date reference for implementing and sustaining superior corporate governance. Stanford corporate governance experts David Larcker and Bryan Tayan carefully synthesize current academic and professional research, summarizing what is known and unknown, and where the evidence remains inconclusive. *Corporate Governance Matters, Second Edition* reviews the field's newest research on issues including compensation, CEO labor markets, board structure, succession, risk, international governance, reporting, audit, institutional and activist investors, governance ratings, and much more. Larcker and Tayan offer models and frameworks demonstrating how the components of governance fit together, with updated examples and scenarios illustrating key points. Throughout, their balanced approach is focused strictly on two goals: to "get the story straight," and to provide useful tools for making better, more informed decisions.

## Book Information

Hardcover: 464 pages

Publisher: Pearson FT Press; 2 edition (August 7, 2015)

Language: English

ISBN-10: 0134031563

ISBN-13: 978-0134031569

Product Dimensions: 7.4 x 1.4 x 9.2 inches

Shipping Weight: 1.6 pounds (View shipping rates and policies)

Best Sellers Rank: #564,727 in Books (See Top 100 in Books) #235 in [Books > Law > Business > Corporate Law](#) #820 in [Books > Business & Money > Finance > Corporate Finance](#) #1554 in [Books > Business & Money > Processes & Infrastructure > Strategic Planning](#)

## Customer Reviews

An excellent book and all you really need to get a grasp of the vast amount of material in the field of corporate governance. The book is concise, clear and state-of-the art. David Larcker is a senior scholar in the field of Accounting; he was a Professor at the Wharton School before Stanford. The book draws upon (peer-reviewed) academic studies and distills these into plain English. Speculation is eschewed in favor of sound empirics and common-sense theory.

I continue to look for an affordable book that reflects insight into Corporate Governance. The video

interview of this book's two authors uses the first minutes (I got no further before deep ennui set in) bemoaning a tick box approach (duh) and that they have the answer from empirical studies to how the context is what counts. Well, I shall not be shelling out US\$65 to read about it (which is around the price that most CorpGov books retail for - imo just exorbitant).

I believe this guide is meant for attorneys but I found parts of it very helpful for me as an auditor performing anti-trust audits.
