# Home Automation With Insteon And X10: Live Your Life And Let Your Home Handle The Rest

Synopsis

With the cost of living continuously increasing, people are looking for more and more ways to save money and simplify their lives. One of the fastest growing trends today that can help with that is home automation. Instead of spending thousands of dollars paying companies to install home automation systems, many home owners are looking for cheaper do-it-yourself approaches.In this book, I introduce you to several products that can get you started with home automation. The products mentioned in this book are reasonably priced and easy to install, even for the most novice home owners. For the more adventurous, I also share with you Python source code that can be used to design your own home automation software and applications.

Customer Reviews

Anyone who has researched anything about Insteon and X-10 won't be impressed with anything in this book. I basically goes over some of the basics. Thumbed through the book, but won't bother reading it. Sorry, nothing of interest here.

Predominately X10, don't expect to learn anything about Insteon.

Useful code in python. Good for a quick.start.
