Customer Reviews

I love this book. This is my first year homeschooling my children. I use one page for each kid. I like that I can write in my own dates and that there is plenty of space to plan out a full day. I use the class records to keep track of my kids scores and also to put in our learning objectives. I use the planner to keep track of appointments and just stuff that I need to remember to do. Overall I am very happy with this purchase.

It is exactly what I wanted! It has enough room for each class for grades AND it has enough space for all the weeks of school to be planned out! We homeschool and I can honestly say it would be perfect for public school teachers OR homeschool.

As a homeschool Mom, honestly this is not the best fit for me. I have one student and thus there are SO many pages I ended up tearing out. I truly just need the lesson plan pages and maybe somewhere to track attendance but I can do that on my computer. But honestly the book would be perfect for a public school teacher. Great quality and a cute cover. :)

I honestly don't care for how this one is set up. There are way too many lines on the lesson plan part, and I would rather have the days of the week on the side instead of the top. It's cute, but I won't purchase this kind again.

It was ok. I am expecting a large class in the fall and am not sure that there will be enough room to account for all of my students. I also wish that the plan book & grade book were separated.

Its a okay book but for that price i think the paper has to be of better quality and thicker. There are plenty of record pages. And also for planning.

Great Lesson Plan and Record Book all in one place! Easy to use and I love the polka dots!

order these every year good price and a good product
