Customer Reviews

I read this book because I have friend who has this disease and I wanted to better understand her circumstance. Maybe find some ways to help her. I was very impressed with the writer's patience to undertake such a job as his. I admire his courage in being able to keep a positive attitude through all of his hardships because of this disease. I say hooray to people who reach out to try and make the road easier for others to travel...May God Bless all who do!

Excellent book..... Writer has gifted way of exposing this disease, from his own experience.... I feel this book should go viral....
