# When Happily Ever After Ends: How To Survive Your Divorce Emotionally, Financially And Legally

## Synopsis

DIVORCE CHANGES EVERYTHING... BUT IT DOES NOT HAVE TO DESTROY IT. Believe it or not you can get through your divorce with your family, your finances and your future reasonably intact. But you can only do that if you know how. Divorce is complicated. But, with the right information, and the right approach, you can not only get through it, but you can get through it well. You just have to understand the divorce process, learn what your choices are, and make the best decisions you can for yourself and your kids. In *When Happily Ever After Ends* you will discover and use the three universal laws of divorce that apply to everyone, everywhere, all the time. You will also learn how to:

- \* Craft a settlement that gets you more of what you want and what you need\*
- Navigate through the divorce process with knowledge instead of fear
- \* Create a financial plan you can live with\*
- Deal with a difficult spouse\*
- Negotiate more effectively

With clear advice and helpful, real world stories you will get the information you need to get through your divorce in the best possible way -- a way that positions you to move forward with confidence into your new life, even if you can't even imagine right now what that life will look like. Don't wait until it is too late. Get your copy of *When Happily Ever After Ends* now!

## Customer Reviews

This book seems to assume that you have a crappy relationship with your former spouse. I do NOT have a crappy relationship with my soon-to-be-ex-husband; in fact it's quite amicable, even friendly. Reading this book, while informative and probably helpful in general, just serves to make me angry at my ex. I don't want to be angry with my ex. So I only read for short periods of time, to try to absorb the useful information, and when I start getting angry I stop for a few days. Those of you who DO have a crappy relationship with your ex, you may enjoy it very much. Either way, it's well written and Ms Covy knows what she's talking about.

This is the most helpful book. I am not to the divorce stage yet, but I am separating from my husband. And this book has given me a wealth of needed information. And food for thought. I don't want to fight with my husband and I want to do what is best for my kids and protect myself. And everyone tells you to find an attorney but attorneys are in business to make money as well so they don't necessarily have my family's best interest at heart either. This book gives you the information you need to know to help yourself. I'm so glad I found it when I did.

I wish I had read this book before I got divorced. It could have helped both of us to survive the ordeal. Actually, it might have kept it from becoming an ordeal. Divorce attorneys should be required to read this book and have it in their "lending libraries" or on a "recommended reading list" for their clients.

I only wish that I had the sage advice that Karen gives in the book when I went through my divorce years ago. What she says is true, logical and sound. If you are going through a tough time in your marriage and need some help - here it is!

This is a well written, easy to read book by a lawyer who knows her stuff. And Oh my god, dare I say it, cares about her clients and the outcome. A real find.

What a great resource for those enduring a divorce and for their families and friends.

Those of us who have gone down this sorry path will be grateful that there is such a well-written

"how-to" guide available.
