IIS 8 Administration: The Personal Trainer For IIS 8.0 And IIS 8.5 (The Personal Trainer For Technology)

Synopsis

Learning IIS 8 administration doesn't have to be a frustrating experience, you can learn everything you need to manage IIS effectively by reading this book. To learn how to manage IIS, you need practical hands-on advice from an expert who has years of experience working with IIS. William Stanek is such an expert. By reading this book and working step by step through the essential tasks discussed, you can learn to:

- Install Web and application servers
- Enable and configure remote administration
- Perform administration using the command-line and Windows PowerShell
- Configure Web sites, servers, and virtual directories
- Manage the global IIS configuration settings
- Customize Web content, HTTP headers, and error messages
- Use included files, custom file types, and caching
- Set up logging and track usage statistics

This book is designed for anyone who wants to learn how to manage IIS 8, including those who manage or support computers running Windows Server 2012 and Windows Server 2012 R2. Inside, you'll find comprehensive overviews, step-by-step procedures, frequently used tasks, documented examples, and much more. One of the goals is to keep the content so concise that the book remains compact and easy to navigate while at the same time ensuring that the book is packed with as much information as possible--making it a valuable resource.

Table of Contents	Introduction	19

Customer Reviews

Anyone who wants to master IIS should get this administration handbook. By far the best available. Stanek has been writing about IIS for longer than I've been working in IT and if you truly want to learn IIS, this is the book that'll teach you the core essentials. Pair with his IIS 8 web apps book for a fairly complete library of what you need to know to administer IIS. Good for beginner to seasoned

pro.

Excellent book full of good tips on how to work with IIS 8.

New book. Come to me on time. Thank you.

Very informative and easy to read. I learned a lot!
