Customer Reviews

I have a blog, and this manual tells you how to write in your blog, curtail your blog posts to your targeted audience, how to go viral, and express your unique blogging voice. I have been spinning my wheels just paying to keep my blog up, wondering if anyone was out there. Using these tools have helped tremendously.

This book was well organized and written. The author gives you a step by step process as well as set of action steps in each chapter. I learned a lot and recommend this book to everyone looking to start blogging,

I love this helpful book! It has become my reference guide to improving my blog posts. I've gone from 40 views to an average of 150 views on my first post. It will only get better from there!

It was a simple read and good to refresh your memory or for beginners, but there isn't a lot of content within it.

Very well written but I did not find it helpful.
