Because I am using Windows 10 and Office 2016 (Office 365) I wanted a quick and easy book to introduce me to OneNote2016 along the lines of Microsoft's "Step By Step" books. As "My OneNote 2016" became available first, I took a stab at it - absolutely no regrets and now I'm happily using it. With Windows 10 & Office 365 sync on my office pc, my home notebook and my Surface Pro3 - I feel "complete". My only regret is I have become too accustomed to my Samsung handphone and I didn't like Microsoft's Lumia (also release so late after Windows 10) - otherwise I would have been perfectly sync anytime anywhere. sigh

Great book...was able to get up and running in under 30 minutes. Also helped me learn some things I didn't know.

Finally I have a book that makes some of even the most sophisticated aspects of OneNote understandable!

Great little book for learning OneNote 2016 quickly.
