Customer Reviews

Men are really sensitive when it comes to erectile dysfunction. It is a problem alright. But it happens to a lot of men that it should not be something to be ashamed of anymore. A lot of men are afraid to acknowledge the problem, let alone reveal it to their partners or even doctors. I got this book for an intimate friend. I want to help him because he's cowering about it. I'm glad to be of help. So, I read it, learned much about it from this book by Daniel Bailey, and then gave him the info. I know it's really weird. But this friend has already become so close to me I could even see his soul. So, anyway, this book had been a great help.
