## **Customer Reviews**

This book is outstanding, it gives you a good hard look at what a women does and how they try to break a mans conference. Learn how to stop the control issues before you are in to deep. This book is going to help you create your own destiny in your controlled environment not hers

Pretty common "manosphere" knowledge in Inside The Mind of An Alpha Male, so you should get this if you really just want to familiarize yourself with what's Alpha and learning how to really respect yourself. This book is also pretty funny, so props for that. It could definitely use some editing. There are a lot of typos but the information is legit.As mentioned in my other reviews of the "classics" that you'll see when first discovering this stuff, the best books you should read (that helped me the most)

are The Natural by Richard La Ruina, Get Laid by Jack Britain and Mystery Method by Mystery. Helped me get more naturally alpha than anything else I've read so I recommend going straight to those, reading them cover to cover, and then just remembering that you HAVE TO KEEP approaching!

Inside The Mind of an Alpha Male was the perfect book for me. As a former 'beta male' who was depressed and suicidal for many years, this book changes (and possibly saved) my life. A lot of this book isn't for everyone. The exercises are life changing, there's no other way to explain it. You have to do the exercises to see results, and when you do the exercises you'll begin to see results QUICKLY!!! This book fully described what I've been going through, how I was treating women, resulting in women not treating me the way I'd like. It gave me concrete steps on how to change things. Since I've read it, my life has improved, I feel better, more powerful, and everyone I meet (including women) are responding to me in a new way. If you're a frustrated guy like I used to be that doesn't get the love, sex or type of women you feel you deserve, you owe it to yourself to read this book!

This book is highly motivational. Honestly one of the best self help books. I have noticed my life change dramatically.
