## **Customer Reviews**

This is the second recent book I have bought on Chicken Recipes and I must admit that I am falling in love with the taste of it. The book has some great recipes that I am sure you will love as well. Have tried a few from this book and they have come out great. The author knows chicken well and has really stuck some great innovation here with the recipes. I am a bit of a scientist as well when it

comes to food and I am finding these recipes simply awesome. The recipes are followed by nutritional facts which is always a bonus because you can balance your fat, protein and carbohydrate intake accordingly.

Very nice! 'Mouth-watering' is an understatement. I'm not a red meat eater so I'm always on the lookout for new fish and chicken recipes. This Easy Chicken Recipes cookbook is a hit in my family. The layout, with pictures and easy to follow instructions along with the nutritional chart makes it stand out. The kids loved the bacon wrapped chicken and the Ham and Cheese stuffed chicken breasts the best so far, but I still need to try out a few more recipes that look amazing. Seriously love this book!

I have always chosen chicken over beef and pork and because it has become so common on the dinner table, I find myself short on recipes on how to make chicken cooking more appealing and with more variety. I've tried Chicken breasts with green chile-almond cream sauce. It was delicious and healthy too! There are other recipes in this book I will be trying out which are easy not too complicated, easy-to get ingredients as well. Excellent cookbook with pictures to boot!

This book has tons of chicken recipes, I never knew there were so many. At least now I know I'll never run out of ideas. I like chicken because it's a leaner and better meat for you than beef and pork. So I try to stick with chicken and turkey. This book is great and I already tried one of the recipes and it was really tasty. You have to try the chicken lazine, it's spicy but just right! I like that that this is a thorough book that includes pictures and nutrition facts.

Wow, there's so many recipes here with great pictures and nutritional information that I find it difficult to decide which dishes to cook yet! However, I feel really tempted to try the Korean fried chicken, Chicken Lazine as well as the Ranch-Parmesan Chicken. All the chicken dishes somehow appeal to me and I think this is a recipe book worth collecting in your Kindle store indeed!

This new chicken recipes cookbook by Lorie Dulcie is absolutely great. I do like chicken meals and particularly enjoyed this book because it has recipes that are so creative. The author manages to present the recipes in a way that made them easy for me to prepare. All chicken-lovers should get a copy and enjoy these great recipes. Jake

I found some unique chicken recipes in this book and have already bookmarked some of those like Chicken Lazone and Ranch-Parmesan Chicken and Chicken Noodle Soup for some special occasions. Great varieties of chicken. I would recommend chicken lovers to buy this book at the earliest so that you can give your family and friends a great and special treat.

If you love chicken, you will love this book. This book is full of the best chicken recipes in the world. Ever since I was young I loved chicken so I've tried so many chicken recipes, but this book contained so many recipes that I have not yet tried and they all tasted amazing. This book is a must for anyone who loves chicken highly recommended!!
