The author explains everything so well. I love how he incorporates questions his students have asked him throughout the years and actually answers them in this textbook in an educated manner. I rented this textbook and the quality in which I received it was near new. I really enjoyed this textbook since it wasn't hard to comprehend at all. The price of this textbook is high but if you manage to rent it, I can honestly say that you will enjoy it.

This textbook was a required class for a 400-level Psych class. It is so well written that I am habitually 2 weeks ahead of the class in the reading assignments. It's clear, it's informative, and engaging.

Great book! It explains the topics very clearly and is overall just really easy to understand. I would definitely recommend it to anyone.

It was very interesting and very intriguing things i never knew and never understood about our sexuality now has me up to speed
