This is the second book I've read by this author and they always seem to start off well where I feel that he really does have a woman's best interest in mind and then as I read further it begins to read like something out of the 50s where, in a round about way he puts the man on a pedestal but does it in such a way as to make it seem like it's within the woman's best interest to do this and that if she wants to keep her man or get a man. Do this, that, and the other thing if you want to be irresistible. I don't believe that all or even most men are the same or all that similar. My ex-husband is quite different than my boyfriend who is quite different than men I've dated. All have different needs. I've been with men who treated me like a 50/50 partner and others who felt, as a woman I have my place (be quiet in Home Depot and let the men talk about stuff needed for the home I own. Disagree with the color screen door they chose and suddenly men feel emasculated). I've had two men leave me because I earned more money than they, but my ex-husband who was very laid back and made me feel like a princess didn't care about that. He's an ex because he fell in love with prescription drugs and we couldn't get beyond that. I would just love for everyone to just grow the hell up and treat each other as adults. Where are the books that tell a man to treat his woman with respect,

love, and adore her and perhaps she will give him her all--beyond his wildest dreams. Whatever happened to teaching give and take? At the end of the day mutual respect wins the race.

If you're looking for a quick --

how-to-slap-on-some-lipstick-and-reveal-your-cleavage-to-get-a-guy-in-bed-with-you -- book, don't buy this. If however you want to attract and keep the type of man who will value you and treasure you for the rest of your life, then go on, spend your money, it will be well spent if you take the time and effort to follow the valuable advice in this book. The author focuses on the really important qualities of being a lovable and irresistible woman. The message is simple - if you love yourself and place a high value on yourself without being vain and selfish, you will be irresistible to the type of man you really want to attract and keep. This book will give you sound, practical advice on exactly how to do this in your day to day life. If you've had a string of failed relationships and dated one loser after the other, it's not them, it's you. This book will explain why and how you can change that situation for good.

After almost 50 years of being together with my husband, "The Irresistible Woman: 8 Most Desirable Traits" is the best book I've read on what a man desires in a partner for life since "Men are from Mars - Women are from Venus." How reassuring that topping the list is Honesty. The rest of the desirable traits just get better from there. Great read!

This is seriously a most engaging book that women must really read and understand. I find this book very true in every aspect. I mean, as a woman, I know my limits and, yes, insecurities. And this book made me realize them more and then ponder on what I have been and not been doing. Wow, but this is a super enlightenment for me. This is where I learned about the difference between the irresistible and the needy woman, and boy, was this an eye-opener. I feel this book is me all right.

This book was great. Nowadays, everywhere you look, on every billboard, every channel there are beautiful, scantily clad women. So you could be forgiven for thinking that female beauty is relegated to large boobs and a tiny waist. But the truth about women and men who love them is infinitely more complex. In fact, when men on Reddit were asked what things women do that are irresistible, the answers were generally more innocent than overtly sexual. And this book came out, the book contains a lot of advice's on how to value yourself and how to become a better woman for men. Great book to read.

The title only scratches the surface of what Eric Monroe is sharing. This book is about improving the quality of your contacts when you are interested in meeting the right person and the traits that successful women have. But it also examines the foundational issues about relationships, meeting people, knowing yourself and what you want in a relationship. Without going too far into the author's content, Eric makes it clear that these eight traits are all POSITIVE traits that are Healthy. These are not traits that negate you or insult your intelligence. If anything Eric wants his audience to come away from this book ready to be honest with themselves so that they can really get what they want out of life and enjoy the relationships that will be most satisfying for them.

This book will definitely go some extra miles in helping women out there be the most desirable they can be. This book is not something we see everyday, it has been so smart in telling women readers how to be irresistible and how to make men desire and want them. And I find each of the tips given here very smart, I mean, once done right, I'm sure that they can help. And I love the candid approach of the author in giving everything. This book is epic!
