Most companies cram every possible piece of information into their outlines regardless of whether it is actually tested. Such information overload causes problems during the exam. Our book is comprised of "Comprehensive Outlines," "Primer Outlines," "Issue Spotters," and CBT's famous "Performance Test Approach." Everything you need to pass the bar is at your fingertips. The "Comprehensive Outlines" are designed to be studied from until the last three weeks before the bar. Needless to say, they are comprehensive and explain the law in the way it should be written on the bar exam. The "Primer Outlines" are concise and are designed to make the most efficient use of your study time during the final weeks before the bar exam. They are structured to form an active approach that you can work through to make sure you hit all of the issues and maximize points. The "Issue Spotters" are short, one page checklists that are designed to be memorized prior to taking the bar exam. Exam takers use these checklists to make sure no issue goes uncovered. The "Performance Test Approach." Many bar takers contacted us looking for a concise approach that can help them succeed on the performance test section of the California Bar. The truth is, many other commercial bar programs insist on telling bar takers that the performance test is harder than it really is. They say this to justify charging outrageous fees. In reality, a straightforward, methodical approach is all that is required. Answering demand, we created a straightforward approach to the performance test that many have used to pass the bar on the first attempt. With this book, success can be yours!

## Customer Reviews

In moment of bar-related panic, I purchased this book as a supplement to an online course I'm taking for the February 2016 exam. This was a profoundly stupid decision on my part and a phenomenal waste of money. For something so expensive, only minimal effort went into throwing this book together. No one proofread the comprehensive outlines. After only 26 pages of reading, I've found countless spelling errors. Sloppy drafting produced some sentences that are an amalgam of two separate phrasings. Every time I found a simple error, I found myself questioning the credibility of the entire book. But editing is hard, you say? So is studying for the bar. Suck it up. What I've found most disturbing through this whole experience is that many California distinctions for Civil Procedure seem to be missing. This includes differences in terminology between federal and state as well as substantive points that alter matters such as discovery scope. I'm not sure how a book that boasts comprehensive preparation for the California bar examination justifies skipping over this seemingly important information. The outline for Business Associations seems OK (minus the spelling and grammatical issues), but I cannot attest to the condition of any other subjects as I have yet to get that far in the book. I honestly don't know if I will after slogging through this Civ Pro outline. The bar is a special kind of hell in any state, and anyone preparing for it can attest to the stress under even the most neutral circumstances. Don't put out a subpar product and make this whole process that much more frustrating.

I have been going through this book as my main source for the February 2016 California Bar Exam.

So far it has been rather helpful. I like that it has a performance test approach. It would have been even better if it had a sample performance test in the book. Overall i'm liking it and I would recommend it to others.

I have been using this book for the February Bar Exam and it has really taken away a lot of my stress. I have a private tutor that grades my essays and he says that my black letter law is spot on. I have only used this book, so I must thank the authors. Now fingers crossed, the exam is a few weeks away - hopefully I will pass!

As a repeat taker, I find that this book makes more sense than the materials I used in the past. It makes the black letter law easy to remember. The fact that it has ready to go check lists in addition to the long outlines makes it all that much better.
