## Customer Reviews

Most of this I already knew, and think is common sense. It is good to refresh on things though. Also, if you don't know what is good to eat, and how to care for your scalp, hair, and prevent hair from falling out. What vitamins, minerals etc. what not to use in your hair, on your scalp and how to treat it. Of course you should know why you're losing your hair to really help, but these things can be applied either way.
