Customer Reviews

This is more like a herbal guide, easy to read and straight to the point, and you can tell that author did sufficient amount of research on each herb suggested in this book (It doesn't only suggest herbs)I use it every now and then to check whether the herb is useful for me or not, the side effects, whether it is known to be contaminated or not, etc.. it is a comprehensive book and I highly recommend it for men, and even women :)

Now this is doable! An informative book on herbs and health that doesn't leave you with an "Oh no! Now where do I start" feeling when you finish the book.It's nice to know that a few herbs can cover a multitude of symptoms. And it's nice to hear that you don't have to live on them all the time.Thank you.
