The Ultimate Hair Loss Cure: How To Stop Balding And Regain Hair Growth In 30 Days Or Less

Synopsis

"Stop Balding And Regain Hair Growth!" Dear Alopecia Sufferer, If you wanna regain hair growth using simple, effective, inexpensive home remedies | then this might be the most important letter you read. Here's what this is about: When I noticed my hair receding I felt a sinking feeling in the pit of my stomach. Over the next few years it got worse until I was completely bald on top | and I was only 32. Why did this happen... And more importantly, how could I stop it without expensive prescription pills (with their horrible side effects), or the shady products on late-night infomercials... or even worse... painful hair plugs. Then one day, everything changed... while I was looking through toupees, feeling sorry for myself when I said, "I will get my hair back!" It took years of searching, dead-ends, and frustration until I finally found a solution that worked for me. Since then I've showed it to hundred of friends & associates and when they had the same incredible success I did... I decided to write down this information to help others like you. I called it The Ultimate Hair Loss Cure, and I know it will work for you too. But before you get this book, let me tell you exactly what's inside, so you know it's right for you... Learn the 11 types of Alopecia (And how to figure out which one you are suffering from)! Discover how this common (and inexpensive) oil found in every supermarket increases blood flow to your hair follicles and strengthens roots (Plus it reduces stress, a leading cause of hair loss)! The two best essential oils for increasing blood flow to your scalp! The one flower that could be your hair growth miracle! The 10 herbs you should be consuming everyday! How to use an onion to increase your scalp health! The 8 simple home remedies using things you probably have in your kitchen right now (lemons, eggs, honey, black pepper, bananas |) to start regaining hair today! I love that you can pick up these quick, to the point booklets and read them to pick up great info that helps address things like how to stop losing your hair. My husband has this issue and we had never heard of a lot of these remedies, such as massaging your scalp with coconut oil? Really? Who would've thought! Lots of recommendations for treatments, herbal treatments seem to be on the rise and the booklet explains each one. And other things like egg yolk, coconut milk and baking soda are new to us as well. This is a very helpful guide, I recommend it.

Hair loss is something that eventually happens to everyone. Personally my family has a history so I'm trying to prevent this while I still can. The advice on how to prevent hair loss is very helpful. It provides detailed information about hair growth, how psychological stress and nutritious problems can lead to hair loss. please enjoy and then you'll learn from "Discover the 19 most common causes of hair loss (And how to identify the ones affecting you the most)!" to " Learn the 10 simple steps you can take to prevent balding (And how to check your diet for these â œhair killerâ • foods)!"

This is pretty complete but I would add borage oil, evening primrose oil, fish/flax oil combo oil, and seaweed to the nutrients list. These all combined restored my hair over time.
