## Customer Reviews

Seems like the end game for him was to write this book. I would really like to see someone who is actually trying to do this full time for a long time. I just can't wrap my head around throwing all this money at this and then walking away

First 5 chapters are all his biography with jobs before selling on and at the end he leaves and goes back to the corporate world. More of his sales figures-some strategy like combining sales with coupons and such.

About the first 40% of this book is about this author and religion. I did not enjoy that. This book could have been a lot better and shorter if it was not a biography and focused more on what the title said it was.

Length: 1:07 Mins

Picked up a copy book after hearing about it facebook group. Really didn't have any exceptions about the book other than trying get the most out out. The book is packed with lessons learned, making hard choices, and dealing with the path you chose or you are destined to take. I didn't read this book thinking Robert was going to tell me how to build an business but I read it because I wanted to learn from his mistakes. I think overall its a good book to pick up a an ebook to use a guideline for becoming a full time entrepreneur (See Page 45).Pros: Easy Read, Lots of lessons to learn from and apply to your own personal journeyCons: Didn't give out the step by step business plan. meeh

I really enjoyed reading Roberts' book. It flowed very nicely and the story was inspiring. It was also very practical and realistic in showing what it takes to make it as an online retailer. I am also encouraged by his faith in God and his vulnerability.I would highly recommend it.

I found lots of interesting and helpful advice here on how to do your business form your home and not worry about the path you've taken. Robert's story inspired me with it's practicality and I enjoyed it.

Robert shares what it is like to leave his six-figure corporate job to pursue a job as a full-time FBA seller. It was interesting to read how he was able to be successful by hard work and perseverance..

As other have stated, the first 40% of the book is about the author's religion. The like 25% are transcripts from his YouTube. 100%-65%= maybe about 35% of the book is about the author leaving his job to sell on . With the title that it has, this is not what I expected out of the book
