Customer Reviews

Without any review, I never had a chance to really know if this is the book that I need. Unfortunately, it is not what I was looking for. However, the book itself is OK for beginners who are looking for simple objects like Christmas tree ornaments, butter and cookie molds, chip-carved pieces, tramp-carving, gouge decoration, silhouettes and more. For experienced carvers, challenging projects like toys, weather vanes, signs, noisemakers, musical instruments, cigar-store, animals and humans, caricatures, carved jigsaw puzzles and more.

Great pictures, and a great learning tool. Explanations are very good. Talks about blades, sharpening and pressure. Author even lets you know which finger is likely to get cut!! This book is a KEEPER for reference. Going in my library. Thank you for all the tips and lessons.

This book came quickly and in great condition for a used book. I love reading the history behind the

projects all you need is copier to enlarge the project you wish to undertake

A wonderful and thorough guide for experts or beginning carvers Well written and easy to understand and friendly tone of text make it a good buy

Great for library & shop
