So much planning to do, so little time. However, with this book, it has helped us do everything swiftly and surely. I love this book. I actually recommend this book to all of the couples planning to marry. Now, everything's set and we only need to wait for the wedding day.

This book provides such excellent information on steps to take to make sure that you have the day that you want without costing an incredible amount of money. With advice on picking venues, wedding favors, cakes and flowers. I definitely recommend this book for anyone in the wedding planning process.

Prices of weddings can be insane, which is kind of dumb, because there are so many affordable ways to do it. This guide will show you some ideas of how to cut costs (especially as a young couple just starting out). Great book. Long enough to get your moneyâ™s worth out of it, and nice and to the point. No fluff. Definitely deserves 5 stars.

After someday Iâ™m going to be married. Thatâ™s why I started planning for the ceremony. I was confused where to start. And my budget for the program is not that high. Thatâ™s why I purchased some book on wedding planning. And this is the perfect book for me. The tips for a successful wedding ceremony in a inexpensive budget are awesome. Thanks to Annie Ramsey for helping in such a way.
