Customer Reviews

I bought this as a gift for my Mother who bought this phone and was very lost as to what to do with it. She is able to read the book at her own pace and is learning something new about it every day. It is written in clear and concise terms, and nothing is confusing or over her head technically speaking at all. She loves it and doesnt know what she would do without it - thank you so much!

Excellent and informative book on the SamsungGalaxy 6. It covers a ton of ground. I like thefact that everything, including the diagrams arein colour. A great reference. Go buy!

This book was an amazing help for me when I switched from a regular phone to a smartphone. I am a whiz now.

I am so happy there are genuises who care about all the "dummies" who want to excel in the 21st century. That includes octogenerians! Kkv

Refer to this book on the Samsung S6 frequently.Well laid out,and color throughout - my hat off to Bill Hughes for producing a great book,for a great phone.

This book gave me all the essentials and then some for the proper use of my Samsung Galaxy S6

As always the "Book for Dummies" is well written and illustrated. Having a quick reference guide that is very easy to understand is a "must have' in our rapidly evolving tech world!

Very Good Book on Samsung Galaxy S6.Along with Aaron Halbert's Galaxy S6 and S6 Edge, it is top-of-the-line for the subject
