Customer Reviews

Mother Nature is definitely a wonderful provider! She gives us not only the things we need but also the things weâ™d love to see. This educational book is a collection of all best natural wonders of the world. Through this book, your child will get to learn and appreciate the sights found from all over the world. This will raise awareness and responsibility towards environmental care. This book âœWonders of the World: Mother Nature at Workâ• belongs to a Childrenâ™s book series published by Speedy Publishing. We love Speedy Publishing Childrenâ™s book series as they usually come with excellent photos and basic references that are quite suitable for the underage, for

those small family members at home, for those parents who love to teach their children at home and this type of books serve well for teaching purposes at school too. This book refers about the many beautiful and amazing nature emplacements around the world, as our home planet is full of wonders carved out by nature itself. Beautiful photographs and short references about Iguazu Falls (Argentina-Brazil border), Jeju Island (Korean coast peninsula), Komodo Island (Indonesia), The Puerto Princesa Underground River (Philippines), Table Mountain (Cape Town, South Africa), Halong Bay (Quang Ninh, Vietnam) and the Rainforest with many fun facts that are well depicted on this book with high definition photographs in full color. As this book has beautiful, full colored, high detailed, photographs/pictures you may want to share with your kids and/or students as they can serve as point for further discussions or a way to develop language skill by promoting the children to express themselves about what they see and understand by looking at the photograph or picture.
