Customer Reviews

Everyone knows that bath bombs are usually pretty expensive if you want fancy ones. They make taking a bath a thousand times better than a normal bath. The best part is that each one can be quite unique and give you a different glorious sensation. The problem is that they cost so much. Well, they used to until I read this book! I had no idea these could be made so inexpensively. I am on a budget and usually consider bath bombs to be a rare treat for myself. After reading this book I see that you can do it all yourself quite often and within the range of a budget!

Got some bath bombs as gifts and I have been wanting to recreate them. However, they are hard to find thus I decided to make one for myself. I got this book for the promise it brings. This recipe book is the bomb! It didn't only provided some recipes but also shared what to do to make bath bombs effective and have longer shelf life. It was great that there was a section on FAQs. The recipes and the instructions are good enough to follow for a beginner like me. IT is an entry level that won't discourage readers to make their own version. I thing more practice of doing the recipes and my version will be a good give away as gifts.

Exactly what I was looking for! With the lack of kid-oriented bath bombs out there, my 10 year old and I decided to try making our own. This book has a number of simple recipes and easy to follow instructions. Other stuff you need: Epsom Salt Epsoak Epsom Salt 5 Lbs - 100% Pure Magnesium Sulfate, Made in USA Citric Acid Citric Acid (2 Pounds) Forms 60mm Clear Plastic Acrylic Fillable Ball Ornament - Pkg of 12

The book looks very professional and well written. Recipes are just awesome, highly original with really cool names! It is also a great option for a gift especially for person who loves homemade products and long baths!

I've never heard of bath bombs and never felt the need to try it. I was totally wrong, after trying these bath bombs I just can't go back, the best time is around night before you go to bed, it gives an amazing feeling that I never thought was possible and I prefer it much more than a quick shower. I have really loved bath bombs and I also have always wanted to make my own but I never knew where to start. I have loved every recipe that I have tried so far and I can't wait to try them all. I definitely recommend this book!

I am in bath heaven!!!

Easy to read and easy recipes. Now make yourself in home instead of buying in shop.

This book I bought for my wife! She makes organic cosmetics for yourself. Sometimes these things made with your own hands can be a wonderful gift. Wife enjoyed this book and she has already started something tinkering. If your looking to make your own organic body care products this book will help you do that.
