# Patent Pending In 24 Hours

## Synopsis

Everything you need to protect your invention now The provisional patent application (PPA) is a quick, inexpensive and legal way to claim your invention and buy yourself time to determine whether it's worthwhile to pursue a regular patent. Learn how to: conduct a patent search online complete all the necessary forms evaluate potential hurdles prepare informal drawings file your application, and file a new PPA to reflect modifications. The book also includes important legal forms to help you preserve your rights when showing or selling your invention: nondisclosure agreement patent assignment prototype-maker agreement joint-ownership agreement The 7th edition incorporates changes from the "America Invents Act," as well as recent revisions to patent rules and regulations. Thousands of people have used Patent Pending in 24 Hours successfully. You can, too!

## Customer Reviews

So it took me 8 days to write my PPA, day and night. About 3 nights i did not sleep at all. Stood up 24 hrs just trying to be a perfectionist. Based on my experience, and my understanding of how important it is to do a patent application right whether its just a provisional or not, I dont 100% agree with the book saying in just 24 hrs of your time you can write a patent (and I'm sure they mean that 24 hrs can be spilt across a few days). You need to take your time. The book gives you almost everything you need to write and submit your provisional. However, I would suggest that they go into more detail on how to file online simply because I had hell with a PDF font error that kept coming up

after I uploaded my Specification file. The illustration/drawings went through fine but the full text document was a pain. The book simply says if you get any errors go back and fix them. That's not good enough. Between my husband and myself, we had to search the internet to figure out how to resolve the problem. To save you the trouble, I will tell you how to fix the Font embedded error that the USPTO website gives you. The website will tell you your font isn't embedded if you save your PDF file the default way. If you just save the document with the settings MS Word already put there you may run into trouble. What you have to do is click save as, save the file type as PDF, click on minimum size, click options, select under PDF options "ISO 19005-1 compliant (PDF/A)". Hit ok. Then save. Once your specification is saved this way, the USPTO website will accept the upload and you will be able to continue. They also didn't make the part about the Application data sheet clear enough.
