Like all of the "Teach Yourself Visually" manuals, TEACH YOURSELF VISUALLY IPAD (4th Edition) is an excellent choice for brand-new iPad users. Exact iPad screenshots explain every button and every procedure--showing exactly what a user should be seeing on the screen while following the manual's simple, detailed, step-by-step written instructions. The screenshots are

overlaid with lettered and numbered circles that help the user quickly shift back and forth between the written-out steps and the related buttons shown in the screenshots.With this manual, the fastest way to learn how to do something is to skip the rather brief, inadequate Index, and instead check the Table of Contents for your general area of interest. However, it's a manual designed for new users, and focuses on managing the iPad's settings, using the main features, and navigating. Answers to unconventional questions (e.g.
