Textbook Of Pistols And Revolvers: Their Ammunition, Ballistics And Use

Synopsis

Originally published in 1935, *Textbook of Pistols and Revolvers* is a treatise on handguns of the early twentieth century. Written by Major Julian S. Hatcher, an expert on the subject of firearms of all sorts, readers will gain invaluable insight into everything to do with handheld firearms of the 1930s. In his introduction, Hatcher emphasizes that he has made an earnest effort to make this book accessible for both novices and experts. Novices who know nothing whatsoever about firearms and their use can easily learn from this book, while experts will find a technical reference book where the results of many experiments with pistols and revolvers and their ammunition are tabulated in convenient form. •Covering such subjects as the different methods of shooting and using hand firearms; their mechanism, care and repair; their interior and exterior ballistics; the peculiar suitability of the different kinds for various purposes; the relative effectiveness or stopping power of the various calibers and types of gun and ammunition; and many more, this book is an immense store of knowledge on early handguns. Skyhorse Publishing is proud to publish a broad range of books for hunters and firearms enthusiasts. We publish books about shotguns, rifles, handguns, target shooting, gun collecting, self-defense, archery, ammunition, knives, gunsmithing, gun repair, and wilderness survival. We publish books on deer hunting, big game hunting, small game hunting, wing shooting, turkey hunting, deer stands, duck blinds, bowhunting, wing shooting, hunting dogs, and more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to publishing books on subjects that are sometimes overlooked by other publishers and to authors whose work might not otherwise find a home.

Customer Reviews

The information is somewhat dated in some regards; it was written in the early part of the 20th Century. However, it is one of the original works on the subject and the basic premises of the author have not been evidentially altered.

The Textbook of Pistols and Revolvers is a must read for all gun enthusiasts. This particular edition is beautifully bound and makes a great addition to my library. It should be a great addition to your library too.

The leather binding is beautiful, the type is perfect and it was worth far more then what I paid for the book. This one gets 8 stars out of five ... probably the best book I have ever gotten on line and, with out a doubt, the best re-printed one I have ever seen.

This book is the definative work on handguns. Major Julian Hatcher is the undisputed authority on handguns. This book is essential for anyone interested in firearms.
