## Customer Reviews

I have Dr. Linder's other chart sense books and I was so excited to see that there is now a version specifically for writing! I got it in the mail today and I think it is FANTASTIC! Excited to incorporate into my 5th grade classroom! Thanks!

Love this quick reference text! A keeper on the corner of your desk. Great quick resource for creating anchor charts, checking to ensure information, and most importantly gives creativity to the less than creative teacher tired from the endless stream of paperwork!

If you love teaching with anchor charts this is a must have!! The charts are helpful for reading and writing instruction. My mini lessons went from blah to amazing with this resource. This is a must have for any teacher! If you know a recent grad pick it up for them, before they start their first year.

Have all Roz's books and love them. Enjoy her trainings. I preordered mine. It arrived the day it was released. Read it cover to cover that night. Praying for a k-2 one for writing.

Really makes the CCSS writing standards very clear and manageable. Another great resource from an educator/writer who is in the classrooms making it happen.

Well worth the money. My colleagues and I use this book frequently. The kids love the charts as well.

Great helpful for generating ideas and linking it to a CCLS

Very thorough and information is easy find. Everything is laid out for easy access. I'll definitely be using this book in my classroom.
