## Customer Reviews

Bought this book, because I am a mother of a soon to be young bride, and I had no idea what to do. Great book with lots of great tips. I keep it with me for a referral source. I highly recommend this book to any mom that is as lost as I was, or if you just need a little advise.

I got this for my mom right after I got engaged and she LOVES it. She brings it everywhere and uses it daily! I would recommend for anyone who really wants their mom to feel special and apart of your wedding planning process!

Good overview with good tips, quick and easy to read, helped me plan for various tasks and issues that will need to be handled as I help my daughter prepare for her wedding next year.

This book provides a good amount of information, but isn't exactly what I was looking for. I'd like a book that serves more as a workbook with checklists.

This book provides needed info for moms involved in planning a wedding. It would be especially helpful to those planning a large a wedding.

I gave this as a gift and the mother of the bride said it has so much helpful information.

Pretty general info and not much detail. This book might be more helpful as a starting point for someone who has never organized a party before.

Very helpful guide on what you need to know and do when.
