Customer Reviews

A very informative book with a lot of tips on how to declutter and organize your home. And the good thing is that you don't have to do it all at one go and you only need to spend around 10-20mins per day. and the most important tips of all is how to prevent your home from getting cluttered again after you have spent a lot of time into decluttering. So you don't waste all your efforts.

Good book, especially the last bit on "Prevention is better than cure- Mindset and habit". It is a very simple and direct advice that I must remember when I go and do my shopping. Love to buy and stock up on stuff especially when they are on discount. A tidy home is very important as it reflects the state of the mind.

A very important aspect of living...how many times have we been left searching for keys and the small stuff...how stressful does it feel if our worktable is full of papers...this book is useful for organizing stuff and the art of de cluttering...so that we can be more relaxed, productive and fulfilled...Go for it...filled with a lot of stuff + bonus tips..

A good reminder for everyone to avoid most falls and tripping in our own home is to declutter. I like the Bonus Tips section especially on one simple way to declutter is to sit on the couch and scan the room for disheveled and unorganized items, for just a few minutes in a day or week. Many other suggestions on how to avoid cluttering from shopping without a purpose, 5 mins scanning, choose one item a day to declutter, etc. I have chosen a few minutes a day to declutter. What about you?

I remember the program about Hoarders: Family Secrets and absolutely wanted them to read this book. Its clean, concise, and straight to the point. The pictures in the book illustrates well too. Good buy.
