Vegan in an Asian way of cooking is pretty much unique for me. I always encounter vegan food but they only use the western cooking style and I find it repetitive and having this kind of book is heaven. Though I'm not a vegan but I truly appreciate their health benefits and their advantages to our body. And most of the time I find it very delicious and mouthwatering. I can't wait to try all the recipes in this book, it all looks very delicious!
