Customer Reviews

Gordon Rock explains Vietnamese cuisine in layman's terms. It's easy to understand and prepare these items. While I'm not as familiar with Vietnames food as much as other types, the recipes taste wonderful. The ingredients are a bit hard to find but that is the case with many ethnic cuisines.

Highly recommend.

I have recently been trying to do more things at home - from making my own personal care products to cooking my own meals instead of ordering in. One of my favorite things to order in, is Vietnamese, and so when I saw this cookbook I thought it might provide me with some decent alternatives to my favorite Vietnamese takeout. I was excited to see that one of my favorite foods - Vietnamese Chicken Curry - was featured in the cookbook - and, as someone who doesn't like to cook, was happy that the instructions weren't too complicated. The ingredients, however, were a pain to find, and I wish the author had listed possible substitutes to some of the products mentioned. I did enjoy the pictures throughout the book - they were realistic and provided me a set of parameters to understand what the food could look like.

Since I was a head chef in an Oriental restaurant I have a great desire to cook the best food I can. This cookbook is full of some really delicious recipes. My hat is off to the author of this fantastic cookbook. Thank you and enjoy your meal and enjoy your day.
