Customer Reviews

Well, I must admit I smile at these jokes and some of them I laugh at. "Yo mama" jokes were so popular when I was growing up, Now I look back at them and say they are so rude. However I guess it depends on how you are using them. I used to sit on the porch of one my friends houses and we would go back and forth with "Your Mama" jokes, until we could no longer think of any. They can be hysterical but they are usually offensive. So this is a grand collection of jokes I would no longer use, ever. But is a wonderful collection. You get 350 different jokes to jab at your friends. My grandson is in 2nd grade, is an avid reader, he reads way above his school grade. He would love to have this book in print to add to his extensive library, I may have to buy it for him and I am very willing to do so.***I am grateful to have received this product for a discounted rate in exchange for my personal, honest, unbiased and non-compensated review. Hilarious! I thought this book would just be full of tired old jokes that I've heard already, but there's a TON of brand new ones that totally caught me off guard. Whoever came up with this simple, comprehensive list of Yo Mama jokes has definitely kept with the times. There's no fuss, no muss... just jokes in a long list, categorized by the different types of things that Yo Mama is. For instance chapter one contains only the best "Yo Mama is so fat..." type jokes, followed logically by chapter two : "Yo Mama is so skinny..." type jokes. This is a great reference joke book to carry around with you on your phone for whenever you get caught in a Yo Mama joke contest. It happens, trust me - I've seen it before and if you aren't prepared the results aren't pretty. I gave this my honest, truthful, and unbiased review based on how I really feel about the product. While it is true that I received it for free that had no bearing on how I truly felt about it. I thoroughly enjoyed reading through this book.

Pros: A straightforward book, exactly what it's labeled on the tin. Most of these jokes are hackneyed and old but to some folks they'll be new. Also the novelty of having this on your shelf might be worth the purchase. Cons: For a book targeted for kids, there's a dearth of pictures to grab their attention. OVERALL: Product was as described: Yes Would I purchase from this seller again?: Not unless it's free Would I recommend to friends and family?: No Packaging: N/A Graphics and design

quality: None. Book could benefit greatly from that. I received this product for free/discount in exchange for my unbiased and honest review. All of the opinions expressed above are my own alone. I do not hesitate to leave scathing reviews of abysmal products, as you can see from my review history, but by the same token I also give outstanding reviews to outstanding products. I find reviews the most helpful part of shopping on , and I treat this reviews section with the respect it deserves.

My girls and I love to laugh and joke around so I thought I would check out this Yo Mama Joke Bible by Johnny B. Laughing and see if it had anything good to chuckle about. Oh my, did we ever have a good time with this book! I can't remember the last time I laughed that much and my girls enjoyed it as well. Honestly, it's things like this that make great and hilarious bonding moments in my crazy family. Five stars because although there were a few I had heard before, most were ones that I had not heard. Excellent job!** I received the Yo Mama Jokes Bible by Johnny B. Laughing e-book at no cost in order to read it and provide some honest feedback about the information contained within. The statements made above are reflective of my personal opinion of this book and have not been influenced by the author or anyone else. I got the Yo Mama Jokes Bible: 350+ Funny & Hilarious Yo Mama Jokes (Funny Yo Mama Jokes Book 1) Kindle Edition because I thought I needed to remind myself of some good "Yo Mama" jokes. I like how they are grouped into subject e.g. fat, thin, short or tall, etc. Some are old ad dumb but some are so funny, probably because I had not thought of them already. So with that, your mama is so hairy she was mistaken for a bear. Disclosure of Material Connection: I received one or more of the products or services mentioned above for a discount in the hope that I would mention it on my review. Regardless, I only recommend products or services I use personally and believe will be good for my readers. I am disclosing this in accordance with the Federal Trade Commission's 16 CFR, Part 255: "Guides Concerning the Use of Endorsements and Testimonials in Advertising."

I got this book for me thinking I'd share it with my kids. Not gonna happen. Most of the jokes in this book are ones I grew up with- I'm almost 40. There were sprinklings of newer material with some references to facebook and iphones. There were a lot of jokes I wouldn't share with my children.

Before you ask yourself why would I tell yo mamma jokes to my kids- how funny is it to hear something unexpected from your mom?!As adult humor and maybe for your high school aged child, these are okay. Nothing really to make you double over, but definitely good for a smirk and occasional chuckle. For my elementary babies, there are too many "not-for-you" jokes to share this book unattended.I bought this product at a discount in exchange for my honest and unbiased review.
