## Customer Reviews

This cookbook is indeed one of the best books I have ever read. It is jam-packed with succulent recipes that will have your tastebuds asking for more. This book is truly a great read. I would strongly recommend this book to anyone.

My family loves soups and I am always looking for new interesting recipes. This well-written book contains plenty delicious recipes for soups. Another thing I love is that these recipes are very easy to follow.

At first I was skeptical, but then I decided to give it a try. The \$1 price really doesn't do justice to this book. I love cooking and this was a great addition to my other recipe books. I wouldn't have normally tried a lot of the flavor combinations, but I'm delighted by the results, so Guam soups will always have a place on my table.

Not too many recipes but the ones it does have are so full of flavor you just have to try them. Thank you and enjoy your day.
