Not a big fan of word protein. Plant based proteins are healthier and compassionate than animal based, so I love plant based proteins. I have been following a whole food plant based diet with great results for multiple years. Recently I went to my local library and checked out bunch of vegan books based on multiple recommendations including here. I picked out books that have good overview and nice recipes for good meal plans. This book definitely has good recipes/overviews for a plant based lifestyle. Spicy and Tasty! I try to cut down oil also as much as possible and adapt the recipes. My reading list for anyone interested in this lifestyle isReading Set:1. Dr. Thomas Campbell, MD and Dr. T.
