Your First Bonsai: A Beginners Guide To Bonsai Growing, Bonsai Care And Understanding The Bonsai (The Art Of Bonsai, Bonsai Care, Bonsai Gardening)

Synopsis

Your First Bonsai - A Beginners Guide To Bonsai Growing, Bonsai Care and Understanding The Bonsai

Would you like to know how to grow and care for a Bonsai tree? To many people, looking after a Bonsai is a mystery. I too started out as an inexperienced bonsai gardener many years ago and unfortunately, not many experts were around to help me with my first couple of growing experiences. Let's just say they didn't turn out as planned! I have written this book to aid you to grow your first bonsai. It will help you through the process, even if you do not have much, or any, prior knowledge about these wonderful miniature trees. We will look at picking the correct bonsai for your first tree, how to create the perfect environment for your tree, how to feed and water your tree, the tools you will need to help you in growing your bonsai as well the important tasks of pruning and repotting. Luckily, I spent some time searching for resources and slowly but surely I learnt how to grow a bonsai. Not perfectly at first, but the more I learnt, the easier it got. This book is designed to help complete beginners on how to grow, care for, and ultimately understand the Bonsai

Here's A Preview Of What's Inside

An Introduction To The Bonsai

The Easiest Type of Bonsai To Grow For Beginners

Creating The Perfect Bonsai Environment

Customer Reviews

This is written well and it's good for a person just getting into the bonsai world. The only downside of the book is a lot of the same information can be found online. Also this book seems a little short, which might be good or bad. I don't think you could go wrong with this book.

I am really excited in the outcome of my first bonsai. I really love growing bonsai. This is one of the reasons I grab the book. This is one of my stress relievers and it is very fulfilling when you can grow one. Patience and perseverance are greatly required. Thanks to you Louise Harvey for sharing the guide. The common Bonsai Mistakes written on the book is a great help because many really are doing it. From beginning to end guide!

I was unaware of Bonsai before reading this book but after reading I am interested in growing my own Bonsai. This is a great book for all beginners and experts in Bonsai as it provides very detailed information on the proper caring and maintaining of the tree. It is highly recommended for all future gardeners who need a tree that will provide brightness to their garden.

Great book. I thought it is to a great degree hard to grow a bonsai tree and didn't set out to attempt it. This book makes an incredible showing breaking the myth. Presently I'm certain I can do it on the off chance that I purchase fledgling bonsai tree. Recommended to all.

Good book very informative! My tree died though, but at least I knew why! Haha (not enough direct sunlight)

Very helpful, and written for real people. A keeper.

Disappointingly short. The book is physically very thin, about the width of a weekly news magazine. The content is equally short, very little explanation with lots of white space on the already sparse pages. I ended up googling how to care for my Bonsai, and got way better instructions on the internet for free.

Well explained. Useful book for the beginners.
