Even the most patient owners can get stressed and frustrated with poor training results ... but before you send that cute-as-pie head-strong pup back to the pound, please read every word on this page ... Discover how so called dog training experts are instructing you to use almost all of the WRONG training techniques on your poor puppy....teaching him bad habits for life! Here's the thing that most people do not realize...Your puppy is actually "hard wired" to do as you say. And what I mean by that is it's actually an instinct for your puppy to obey you. That's the way puppies are. It stems back to their natural instinct to look for a leader. They have a special mental "triggers" that drive almost all of their behavior. And when you understand how that works and you tap into this little-known dog driving forces, you can totally shape their behavior. Many dog training books and well intentioned advice from family and friends, can actually work against you and your dog and create further deep rooted behavior issues that result in long-term problems that cause the dog to be restless, unhappy and a challenge on your lifestyle. In this book you'll discover the 10 Worst Dog And Puppy Training Mistakes that people make and how to correct them so that you can see an immediate change and quickly transform your puppy into a healthy, happy and loving dog that will obey your every command. Once you begin training your puppy the right way, you will see a difference in your dog or puppy within 3 days! Even if you have never trained a dog before! Imagine having an angelic puppy or dog that actually begins listening to you in as little as 3 days! You'll be able to soon, and it doesn't matter what breed you have or how "stubborn" he is. Here Is A Preview Of What You'll Learn... Why 'crate training' for some owners is the worst idea ever. How doing this is training your puppy to become a fearful dog. Why dogs and puppies will run away the first chance they get and why it's all your fault. Why you need to begin training your puppy from Day 1. How punishment-based training could leave you with the very opposite results that you are looking for in your pup. The secret behind successful positive reinforcement training. Much, much more! Customer Reviews

For all the lovers and dog owners recommend this book for that reason, because in it you will find everything related to dog training and treatment of dogs. Also , this book shows you all possible errors that should avoid during disciplining your dog . really great book . All praise and my recommendation !

Well written, easy to understand with good examples. It makes you think and provide you with the necessary tools to start training together with your dog. I like the freedom and understanding of differences the author gives you in this book. It is short, and it should be. I think it is a great platform to start building a lifelong relationship on.

Very short, and all of these tips you can find online for free. It basically tells you you should train your puppy from day 1, be consistent, not hit your dog, not reward bad behavior, reward good behavior, not keep him in a crate all day long, etc. If you are a first time owner, you need a good quality book with detailed training program and a lot of information, this book will not be remotely enough. If you are a somewhat experienced owner, this book is absolutely boring and useless. Whether you are a first time owner or experienced owner, you can skip this one.
