## Customer Reviews

This is an excellent, insightful, important and incredibly thorough examination of what has been one of the most prominent and misunderstood conflicts of our generation. The authors (historians/experts/professors) clearly know their stuff, and they maintain an objective and balanced perspective where others tend to follow emotions. I find this textbook to be a real resource - whether you read it cover-to-cover, use it to look up certain details, or just want a valuable overview of the subject through the Preface and Introduction.

Reads like a novel. Best written text book assigned to me this year. Absolutely loved the flow.

As promised
