inÂ Books > Computers & Technology > Operating Systems > Linux > Programming   #493

inÂ Kindle Store > Kindle eBooks > Computers & Technology > Programming > C & C++

Customer Reviews

This ebook provides code and screen shots. Do this, now do this, etc.No explanations whatsoever. I didn't test code, but I prefer some explanations.If you want just sample code, and steps involved, you may like this book.Otherwise, I recommend Pluralsight's course: "Building a Web App with ASP.NET 5, MVC 6, EF7 and AngularJS."This covers most of the same material, plus more, from a Windows perspective only. It has extensive explanations.In any case, either of these assumes that you have experience as a software developer.

very good
