# Cat Behaviour Guide: How To Train A Cat, Stop Cat Problems For Good (Cat Training Secrets Book 1)

## Synopsis

Proven, Step-By-Step methods that will stop cat behaviour problems  
First off my name is Jade King I have been a cat lover all my life, I have had plenty of pet cats over the years. However they all weren't trained, meaning lot of rips and damage was caused! I nearly had to get rid of my pet cat. THEN I started to train my cat. I spend end-less hours researching and testing. Finally after a few short weeks I started seeing results! The cat behaviour problems began to stop."All the methods in this book are proven to prevent cat behaviour problems, I have had personal experience testing each and every method I use in the book" Here is a preview of what you'll learn...  
Identify bad behaviours that you would like to stop in your cat and their root causes  
Start with the general commands like Come, Go, Sit and Stand  
Stop your cat from scratching furniture  
How to get a cat to stop spraying indoors  
Training your cat to stop biting or clawing  
Litter box training  
Training your cat to become a good eater  
How to stop a cat's predatory aggression  
Rewarding good cat behaviour  
show your cat that good things come out of obeying orders  
And Much, Much More!

## Customer Reviews

It's an excellent book! I read it even though my two cats do not have any problems. Basically the reason, why I read this book was to find input about things I did not know. I had always thought that I was lucky with my two cats, ever since I managed to get them used to each other they don't create any problem. Author Jade King makes a case for the more you love your cat(s) they more they'll love you back • and I do that. So, maybe that's why they are so happy. Most interesting to me was the chapter "Train your cat to become a good eater". My cats help themselves whenever they are hungry, they eat together and so far I thought that's fine. Now after reading this book I am contemplating whether I should train them to become good eaters. Thank you, Gisela Hausmann, author & blogger

A very simple, straightforward guide best suited to new or first time cat owners. No subject in the book is covered in any great depth but it does offer some good tips on how to manage your cat's behavior. One section of the book seems to be missing a few sentences. Otherwise, a very easy read. A few British terms/phrases but nothing that you can't figure out the meaning of. I give it 3 stars for being a good introduction to the world of cat behavior. If your cat has any of the problems this book mentions, you will probably need to do further investigation on the subject. But this book offers a good starting point.

And nothing I didn't already know. Maybe someone who has never, at any point in their life, had a cat would this be helpful. And I absolutely roared over using a baby gate to keep a cat either in or out of some place. That's a guaranteed way to have the cat get over or under the gate. The one piece of advice a new cat owner needs to know is missing: never, ever underestimate your cat.
