## Customer Reviews

This short book gives you some delicious and healthy south beach recipes and also the instructions are very detailed. The book does not provide TOC which makes it difficult to go through the book.

The book helps you understand the concept of CARBS and will teach you how to cut the proportions and the carbs. The book has been divided into three phases and has discussed each recipe in detail. I like the Asian Turkey Meatballs in Lettuce Cups. The book is easy to follow and the book itself is very easy to read.

when we start to think of losing weight, we all start to think of what to eat and what's not? between, if we eat carbs, how much do we need to eat? so lot of such questions are answered in this book. it's one of the best books to lose your weight and also enjoy the meals without skipping anything with south beach diet. it also gives details about approved carbs, approved food items and disapproved foods.. this will surely help you to make decision.

After reading this book I am sure that a paleo diet is good for me. This book has a range of recipes that I am excited to use and it is easy to follow which is great for an amateur cook like me. Nice read.

I've been trying to lose weight and wanted to try something different. I work out a lot but still have a hard time losing weight, so thought I'd give a diet change a try with the South Beach Diet. I was primarily looking for a recipe book, but what I really love about Taylor's book is that it doesn't just provide easy to follow recipes, meal plans, and approved/disapproved food lists, it also gives some scientific information about how the diet works and what carbohydrates do in your body, as well as some information about exercise. This book has been an invaluable resource for me.
