Well-researched, yet a bit long at times, "El Secreto de Selena" ("Selena's Secret"), is an interesting thought-provoking expose on the reasons that led to the singer's death by her fan club manager. Puerto Rican news anchor, Maria Celeste Arraras, who is one of the most respected women in her field, decided to write this book based on interviews with several people, most importantly Yolanda Saldivar, Selena's murderer. First of all, let's clear things. Selena wasn't a saint, nor am I. To reach sainthood you have to have perform miracles and go through a process. With the media's power influence, Selena's "canonization" was unnecessary in many ways. Arraras' book, which begins with her discovering about Selena's death at the studios where she films her television show, "Primer Impacto" and moves on to her heading to Corpus Christi, Texas to cover her funeral and the media frenzy that followed is well-written in every sense of the word. Arraras continues with her campaign to punish shock jock Howard Stern for his spoof of Selena's final moments (a chapter that I found unnecessary) and her later investigation of Selena's final days. There are many questions that are answered in this book: Why was Selena spending so much time with her plastic surgeon in Mexico? Why did the Quintanilla family did not disclose the Selena had been to a clothing factory with her "male friend" so many times within a few months (a fact proven by official Mexican documents)? Where was Selena's husband and what was the status of their marriage? Why did Selena choose Mexico to be the production country where her clothing line would be produced? Arraras' book answers all these questions and more.
