## Customer Reviews

Chilling stories on heinous crimes committed by serial killers. The third book, is another hit from these true crime authors. I was engrossed with this book as I was with volume one and two. Well written, a page turner and I was not disappointed.

Volume three of the serial killers true crime anthology. With Michael Newton, Peter Vronsky, RJ Parker, Sylvia Perrini and JJ Slate doing the writing for this volume. Starts off with an introduction of Sociopath vs Psychopath vs Narcissism in Criminals. Great stories from some great authors. I enjoyed every story and couldn't put it down. Can't wait till the next volume. In the meantime check out the authors other books which I have read almost all of them and they are great.

Some of the best true crime writers have contributed stories to the 2016 True Crime Anthology and made it a book for your "keeper" shelf. True crime buffs will recognize some of the featured serial killers, but the writing and details provided make the stories feel fresh. A few of these brutal murderers were unfamiliar, so I added them to the running list of devils I keep in my head. They are known and remembered for all the wrong reasons and serve only as cautionary tales of the type of people to avoid. Anthologies by necessity include short stories, and all of these are interesting and informative. I think you'll enjoy reading this book.

The annual anthology of serial killers is one of my favorite books to read. If you have a fascination with serial killers this book is for. You will read about well known and some not so well known killers. One of my favorite things about RJ Parker publishing is he and his team of writer write stories of lesser know killers not just ones that became famous.

I love these anthology books because I usually read about serial killer that I am not familiar with. That is the case with this book as I had not read about most of these killers before. This was a great group of authors that did an excellent job researching and presenting the stories. This is a very well written book and I highly recommend it to any true crime fan.

My rating would have been higher if not for the number of missing pages throughout the book. Hopefully this will be corrected in the future. I am a true crime fan and was drawn to this series of lesser known crimes but am hesitant to purchase other volumes for fear that I will be faced with another onslaught of blank pages dispersed throughout the book.

This book is well written.it is very educational.some very interesting serial killers in this edition.all authors did a wonderful job writing this book.anyone looking for the perfect gift for Christmas.i recommend 2016 serial killers true crime anthology. Many great true factual stories written on the serial killers listed. Amazing work.

Another great book. You get the stories of 9 different Serial Killers written by 5 great authors. RJ Parker, Peter Vronsky, JJ Slate, Sylvia Perrini and Michael Newton. I highly recommend this book as well as all the others by these authors and RJ Parker Publishing for all true crime readers.
