## Customer Reviews

This book was very Informative and clearly states cause and effect and also the best part is with a Step By Step Program!! It is setup like a GPS to better health which yields Massive Benifiting even after curing the cause of the disease!! I will definitely recommend this book even for people without the subject disease and what proventitive measures for all diseases which is better then Co payment that could be for retirement savings intead. To many benifiting to this study!! Thanks for all you do.

I like the general ideas suggested and have been putting them into practice with amazing results. What I didn't like were all the typos and missed words. I found myself screaming, "where is your proofreader"?

Practical, Excellent,Makes me hopeful. I feel better already. Thank you.

Psoriasis is not an issue for me, but I know people who suffer from it. It must be pretty devastating considering the length some people go through to treat their condition. I've seen drugs for this

ailment which have fatal side effects! That seems pretty extreme for a condition which is not fatal. This concise book is packed with information that can be used by anybody. Since one treatment won't help everybody, this book contains numerous suggestions that may aid relief.

I'm usually skeptical about these kinds of books, but this one is actually really good! I highly recommend it to anyone struggling with Psoriasis.
