Highlights Hidden Pictures®: A Coloring Book For Grown-Up Children

Synopsis

This adult coloring book from Highlights, the iconic children's brand, features a nostalgic collection of intricate, challenging black-and-white Hidden Pictures puzzles for a grown-up audience. Color in the puzzles for an enjoyable, stress-free activity that provides hours of simple relaxation, as well as the fun of re-discovering a beloved childhood pastime. This is a coloring book that adults will love.

Book Information

Paperback: 96 pages

Publisher: Highlights Press; Csm edition (September 29, 2015)

Customer Reviews

I will attach a silent, page-by-page flip through of this coloring book to this review so you can decide for yourself if it is one that will suit your needs. I am reviewing this as an adult coloring book rather than discussing how these designs compare to the Highlights Hidden Picture designs throughout the years. Highlights has been part of a multi-generational tradition at my house. Both my husband and I loved them as children, our children loved them, and now our grandchildren get to follow-on in our footsteps. This coloring book is for adults rather than children. It includes many cartoon designs and has the same look and feel that I remember as a child (though, perhaps, a little more difficult.) It also reminds me of some of the really wacky cartoon-style puzzles I have been enjoying as an adult. In the midst of this, there are many hidden objects in each design. On the outer edge is a list of what you need to be looking for. There is also a key at the back of the book which shows you where the items are if you get stumped. Most of the designs contain small and intricate details. The designs are printed on both sides of off white non-perforated paper. The binding is glued rather than sewn. There is plenty of room to cut out a page if you choose to do so. The designs stop well before

the binding and do not include any designs spread over two pages. Where this book falls down for me is in the coloring medium which can be used well with it. Because of this, I detracted a star from my review rating. It is simply a book for coloring pencils if you wish to color on both sides of the page. All markers (water or alcohol based), fine, ultra-fine, or brush tip bleed through quickly.
