Android Smartphone Help: Take Care Of Your Android (smartphone Guide Book 1)

Synopsis

Android devices especially smartphones have become the ubiquitous necessity of today. With time they tend to slow down, stop functioning properly or breakdown completely. The irate user, who has in most cases spent a huge sum on the android phone, is generally clueless about how to fix it. This simple guide will help you learn the basics of android smartphone maintenance so that your cellphone keeps functioning optimally

Customer Reviews

I chose this rating because I was having having issues on my phone. Like apps running in the background for one

There were things here I had not even thought of. It helped explain some of the androids workings for me.

Good! Since I knew nothing about an android phone, this was a big help!

Was hopeful that there would be something new in here. Unfortunately I found nothing to help.
