My Malignant Tumor And I: Surviving Removal Of An Intestinal Lymphoma And Subsequent Chemo

Synopsis

The author describes his experiences with an unexpected discovery of an intestinal tumor, the medical preparations leading up to its surgical removal, the hospital stay and eventual return home. Subsequently, the removed tumor is diagnosed as malignant. Post-surgical chemotherapy treatments are prescribed, and a 6-month course of treatment is experienced. Experiences during treatment and unusual side effects are described. The author eventually recovers, cancer-free, and is still alive 18 years later.

Customer Reviews

Medical Professionals with a patient having Brandon Rigney's type Abdominal Cancer and facing same surgery would do the patient a large favor to give the patient a copy of his book as he has detailed clearly what will happen from pre - op to post - op and recovery. It is interesting reading regardless. It is unbelievably bad luck that a husband and wife are seriously ill simultaneously and with no nearby family. It is hard to imagine a worse situation. That both survived and are well is testament to strength and courage.

This is another very precise explicit account of a mans personal struggle in fighting cancer while attempting to care for his ill spouse. Brandon's account is very precise in that his descriptions and recall of events prior, during and after the cancer are all first hand. Good reading for anyone dealing with cancer either on a personal level or caring for a loved one that is effected.
