Customer Reviews

Really didn't know that this book was written from the perspective of a cat and strange as it may seem, that perspective really hit home with me especially since I have three cats of my own. As I was reading, I actually did feel like it was a cat speaking to me and again, that may seem strange but I took it to heart. I also learned some new things about cats which I won't repeat here because you should buy the book and learn this for yourself especially when it comes to their food and eating times throughout the day. I also appreciate how this book wasn't filled with a lot of fluff and even though it's a short read, since it's written from the cat's perspective, it was quite entertaining. If you have cats of your own, definitely consider picking this book up and learn some things about cats that you did NOT know before. I think we all tend to take our pets for granted after living with them for awhile. This book definitely made me RETHINK taking my three felines for granted. Good read. Recommended. Giving it 5 STARS.

Cat training is really human training in this happy cranky cat book about how humans need to know their cat better and Obey! I thought it was very funny and there are lots of little zingers in the book that any cat lover will recognize and enjoy. Many thanks!

I love my cat and so I am going to obey obey these rules from the Cat Training book -- so darn funny and recommended for all cat owners.
