Handmade Soap Making: How To Make Homemade Soap The Natural And Organic Way

Synopsis

Start making your own handmade and healthy soap. Have you tried all the soaps available in your local stores and still get the same result? Is your skin starting to feel dry and rough with the soap you are currently using? Are you starting to worry about the harmful effects of commercial soaps that you are exposing to yourself and your family? Or are you just tired of spending money trying out different soaps and you want to save money this time? Well, worry no more because we have the answers for you! Taking a bath is an essential necessity in keeping ourselves clean and in maintaining a proper hygiene. Thus, soap is an essential necessity. Soaps are like food to our skin so it must provide it with the essential nourishment it needs especially that we are constantly exposed to dirt and pollution that dry and damage our skin. We all must be careful of what we put into our skin because some of it may just cause harm to us in the long run. Commercial soaps are actually just detergents that have undergone so many processes that include adding of artificial substances and harmful chemicals and what not. If you are getting dry and damaged skin, those are already some of the visible signs of the harm your soap is doing to you. Better keep yourself and your family away from these chemicals. So make that shift to a more natural, safer, and healthier soap for you and your family that will keep you feeling fresh and confident. Homemade Soaps are essentially safer and more cost-efficient than the store-bought ones. Because, you know what ingredients you are putting into your soap which you will use and will be absorbed by your skin. This will also allow you to personalize and customize your soap with the different essential oils and natural ingredients that will suit your personal preference and style and is perfect for your skin type. This book is your ultimate guide in making your own homemade soap that is healthier and more nourishing for your skin. They are really simple and easy to make because we have simplified the instructions for you. All the ingredients are also available in your local stores so it would not be a problem. Plus, they are very cheap and affordable. You can also try and experiment on the various ways and processes of soap-making even from scratch. All the recipes here are quick, easy, and fun to make so you can do this while you spend time with your family at home. You will also find some tips and safety precautions to keep whole soap-making process safe and fun for you and your family. So, are you ready to make that change and provide your skin with the proper nutrition that will keep it soft, smooth, and glowing? Grab this book now so you and your family can start feeling fresh, healthy, and confident.

Customer Reviews

I am a fan of organic and DIY products and also a fan of soaps so upon learning about this book, I immediately wanted to read it. Soaps with synthetic ingredients are harmful to the skin so it's nice to know that we can make our own home-made organic soap that are much healthier for the skin. This book gave lots of useful information regarding the different methods in making a soap and the recipe for various soaps. The instructions are easy to follow and I think I can make my own in no time. I will definitely recommend this book to all soap lovers out there.

This new book by Amina Jacob covers all you will need to learn about soap making at home - great for the beginner. Talks about the basic techniques and the relevant materials and the appropriate recipes - all done in a writing style that is easy-to-follow. Recommended. Jake

Since Iâ™ve found that most commercial soaps are filled with artificial substances, comparable to all the artificial substances that are in processed meat, I looked for a more natural and healthy alternative to bath myself and cleanse my body. And I believe my search is over with the information and instructions I have received from reading this book. Very useful and easy to follow steps on how to make your own homemade soap. Iâ™ve already made some soap following the Room Temperature Method and it came out great. I highly recommend this book for those who prefer to do most things pure and organically.

This book covers all the methods and gives some good recipes to start with. There are quite a bit of typos that even I found and a good editor or the author just rereading her notes could have found.

For that little irritation I gave it only 4 stars.

I wanted to surprise my girlfriend with homemade present and thought soap making would be perfect. The book gives great tips and background information on soap making with some great recipes for lovely smelling soaps. I ended up making the mocha scented soap and the coconut oil soap and she absolutely loved it and we are currently making the other recipes. A great read for DIY people.

This is an excellent do it yourself book for making soap at home. I had always wanted to start making soap but just wasn't sure where to get started and I found this book to be a valuable resource. It provides basic step by step information that is easy to follow and the recipes are right on. I highly recommend this book to anyone wanting to make soap at home.

Good Read, very insightful

I was not pleased with the book it was not detailed enough, and the instructions were very skimpy. I would not recommend it for a first time soap maker. I found better instructions on YouTube.
