# 2015 Standard Catalog Of World Coins 1901-2000

## Synopsis

A world view like no other! For more than four decades, the Standard Catalog of World Coins, 1901-2000, has provided the most comprehensive resource to 20th century coins on the market. Backed by a worldwide network of numismatic experts and the most authoritative coin database in the world, the tradition of excellence continues with this 42nd edition. Massive in size and striking in scope and detail, this highly respected reference offers invaluable information to the beginning or serious collector, researcher, academician, or coin dealer. Like the world it reflects, the Standard Catalog is ever-changing. For the first time it provides numeric grades for all coin types, as well as values for up to three conditions of proof quality, including PF63 and PF65. As always, the catalog is organized by country, with each listing providing:

- \* Up-to-date values listed by date, mintmark and grade
- \* Globally accepted KM reference numbers
- \* Clear descriptions of a coin's design features

In addition, coins minted in silver, gold, platinum and palladium offer information for charting a course in the turbulent precious metals market:

- \* Total coin weight
- \* Fineness
- \* Actual precious metal weight

With coin values heading in all directions as the collectible coin market settles into its next phase, this may be the most important edition of the Standard Catalog of World Coins to come along in years. Add it to your library and collect with confidence.

## Book Information

Series: Standard Catalog (Book 2015)

Paperback: 2352 pages

Publisher: Krause Publications; 42 edition (June 30, 2014)

Language: English

ISBN-10: 1440240396

ISBN-13: 978-1440240393

Product Dimensions: 8.2 x 3.1 x 10.9 inches

Shipping Weight: 5.1 pounds (View shipping rates and policies)

Average Customer Review: 4.6 out of 5 stars Â Â See all reviews Â (29 customer reviews)

Best Sellers Rank: #743,597 in Books (See Top 100 in Books) #29 in Â Books > Crafts, Hobbies & Home > Antiques & Collectibles > Coins & Medals > World Coins

## Customer Reviews

EDITED 8.7.14 Well, some good news! I was contacted by the publisher (YAY) and they sent me a PDF with the missing pages AND posted them above in the customer photos section. Excellent help by the person who a. looked into it, b. found the answers, c. made sure not only did I get the

information, but that the information was made available easily in a public forum. Many kudos to the individual! I am updating my rating to 5 stars. Are the valuations throughout the catalog perfect? Of course not, nor are medical textbooks full of the latest information, so I look at those as guidelines and confirm elsewhere. Also, not EVERY variant is discussed, but that would be outside the scope of a resource such as this and overall a most excellent job is done when pointing out 'varieties exist'. Given the overall improvements to the layout and the truly 'standard' nature of the catalog are what make this worthy of the star upgrade. The person who contacted me also graciously offered a coupon or discount which was very nice. However, I generally order things on 'special offers' anyway so I did not accept it. It was a nice customer service touch to offer though. Also, once this person was involved I can only say nice things about the efforts made by the company to correct things...I would only recommend that the company should review the way the emails are handled and their phone access. However, that sort of thing has nothing to do with the product itself and does not enter into the rating. The product itself has been redeemed by the added information, and so far I have not noted (or heard of anyone else noting) an issue with the content.
