Customer Reviews

I bought this book for my two year old daughter as she loves to watch Peppa Pig, and she also likes to watch the "surprise egg" videos on YouTube, so I thought this would be a fun book for her. She was so excited when she first saw it. It is a really cute book, with bight colorful pages. There aren't too many words on each page, but at this point she isn't really interested in having it read to her so we point out different things on the pages and talk about them. There are several of the different characters from the show in the book, and she knows all their names. She picks up this book and looks at it all the time. If your child is a Peppa Pig fan this is definitely a nice book to add to your collection. This was a personal purchase bought at the normal retail price. I am reviewing it solely to share my experience with other potential buyers.

I love this book! so adorable! The story is about peppa and her friends going on an egg hunt and then a nice surprise when the chickens eggs hatch these cute little chickity! the colors are brights

and beautiful and the story line is adorable! my five year old is spoiled frankly and she does not show much interest in reading books! she has tons of books and I encourage her to read books with me every night but she always groans and moans about not wanting to do it and then I can't keep her attention even with the shortest of books! but this book she ASKED me to read it to her right away and she was transfixed on the book the whole time and was interactive with it (laughing at Peppa's :SNORT!" and she thought the little baby chicks were so cute she goes "awe!" and then after she asked for more Peppa Pig books! most of the time with colorful books like this they are so BORING! but this story line was simple but still drew in (from a five years perspective) I'm going to buy more in the future!

It was an okay book. Mummy Pig and Daddy Pig don't appear in it. It's more for grandparents. The story was not as interesting to my 18 month old as Bedtime for Peppa, but that's because Peppa, Daddy Pig and Mummy Pig are her favorite characters! The story was also slightly weaker generally.

Like all things "Peppa Pig", my 16 month old granddaughter loves these books. She looks at the pictures and points to her favorite characters and enjoys having them read to her over and over. The book was shipped quickly and was priced right. It's difficult to find "Peppa Pig" items in USA stores because it seems that everything Peppa is made in England and you have to find them online. I like these books so much I bought 10 different books, all published by Scholastic. You can't beat the prices here on for these books.

This was a perfect gift for my daughter this Easter! she is 3 years old and she is a huge Peppa Pig fan. The storyline is very cute. she was thrilled to receive this in her Easter basket. It arrived on time and in perfect condition. This is the perfect gift for any little Peppa Pig fan.

My son loves Peppa and George and this is a really sweet easter story. This book is a perfect gift for an easter basket or just an anytime read..Cute little chicks saying cheep cheep cheep encourage kids to read along with you.Lovely bright pictures and story and language that stay true to Peppa's life and everything that kids love about her.

I am a grandpa! My wife introduced me and my 4 year old granddaughter to Peppa and Family some time back. Simple illustrations, polite speech and manners are taught and is well done. My

Granddaughter loves Peppa so much I got her a Peppa Doll.

My 2.5 year old daughter loves Peppa Pig. The book includes a lot of characters from the show, and there are a few different story lines in this small book, which is awesome. The book is very thin, but for the price is a good addition to other Easter presents..
